

May 12, 2023

Dear Manhasset School Community,

Did You Know? The Proposed 2023-24 Budget supports curriculum initiatives, continuing the provision of a wide range of course offerings at the Secondary School, including:

- the expansion of the internationally recognized Advanced Science Research program;
- the re-introduction of courses including Principles of Engineering, Social Science Research, Art 7: Exploratory, and Business Marketing; and
- the completion of the Broadcast Journalism course sequence through to Broadcast Journalism IV and the expansion of Broadcast Journalism II and III to full-year courses.

Emphasis continues to be placed on the District's Advanced Placement Program, where 29 courses are offered, and 1,612 exams are expected to be written in 2023.
