

Oct. 13, 2020

Dear Manhasset Families,

The Manhasset School District was notified today that a student at the High School tested positive for COVID-19.

After learning about this case, our District immediately contacted the Nassau County Department of Health (DOH) who began contact tracing protocols in order to identify anyone who may have been in close contact with this individual. At this time, the DOH has not recommended any large scale quarantine or closure. Any individual who is deemed to be a close contact will be notified directly by the Nassau County Department of Health with further guidance.

I encourage anyone who is experiencing symptoms such as cough, difficulty breathing, fever, or loss of taste and smell to promptly contact their physician.

Please be reminded that our protocols were designed to mitigate the risk of positive cases and our priority remains the health and safety of our students and staff. More specifically, the District requires that all students and faculty/staff maintain a social distance of 6 feet or more, maintain proper hand hygiene, and wear the appropriate face mask. Furthermore, our staff will continue to conduct daily cleaning of our school building.

Thank you for your continued patience, understanding, and adherence to the protocols in place.

Sincerely,

Dr. Vincent Butera  
Superintendent of Schools
