Procedure for the Proposal of a New Club 2019-2020

In order to propose a new club for consideration, (a) student leader(s) must complete the attached application and meet in the fall with Mrs. Lauria to discuss the proposal of the new club. These steps need to be taken a year prior to a club's potential introduction.

At this meeting, the student leader(s) will provide the completed application to Mrs. Lauria. Additionally, the student leader(s) should be prepared to share:

- a description of the club's purpose/mission
- a rationale for the club's consideration
- student signatures of potential club participants
- plans for events/activities

Applications will only be accepted from September 4, 2019 through December 13, 2019.

The student leader will also be required to meet with Dr. Schlanger and Mrs. Lauria to present the proposal. After a thorough review of this information, a determination will be made as to whether the proposal will be considered for Board of Education approval and, therefore, included in the district's extracurricular budget for the following year. A subsequent meeting will take place with the student leader(s), Dr. Schlanger and Mrs. Lauria once a final determination is made.

Each year, consideration of new clubs will be dependent upon the district's budget. Only a finite number of clubs can be approved.

Sincerely,

Dr. Dean Schlanger
Principal

Laurie Marshall-Lauria
Coordinator for Student Activities
